Chapter 472: All 15 Main Clones of Sung Jin-Woo and Their Assignments

The vastness of the multiverse required more than just Sung Jin-Woo’s presence. His power, his consciousness, had to be distributed across different realms to ensure his dominance, influence, and control over the endless worlds. Thus, he created 15 distinct clones, each imbued with a fraction of his essence. These clones, though lesser in power compared to his original form, were still powerful and acted as extensions of his will. Each clone was assigned a specific domain, responsible for fulfilling the various needs of the multiverse.

Here is the list of Sung Jin-Woo's 15 main clones and their respective assignments:

1. First Clone:
Assignment: Guardian of the Abyss
Description: The First Clone was deployed to the Abyss, the darkest and most perilous realm. Its task was to maintain order within this chaotic dimension, preventing the forces of darkness from breaking free and ensuring that the creatures of the Abyss remained in check. It also kept an eye on any forces attempting to disrupt the balance of the multiverse from this realm.

2. Second Clone:
Assignment: Protector of Earth (Disguised as an $S^{20}$-Rank Hunter)
Description: The Second Clone was sent to Earth, blending into the mortal world as an $S^{20}$-Rank hunter. Its mission was to safeguard the realm from external threats, observe the evolution of mortal life, and ensure that no forces from the higher realms interfered with the natural progression of Earth’s inhabitants.

3. Third Clone:
Assignment: Overseer of the Shadowverse
Description: The Third Clone was sent to the Shadowverse, a realm inhabited by the Shadowkins (high humans, elves, and dwarves). Its task was to monitor the activities of the Shadowkins and ensure they remained aligned with the will of the Divine Triad, preserving peace and order among them.

4. Fourth Clone:
Assignment: Supervisor of the Shadow Abyss
Description: The Fourth Clone was assigned to the Shadow Abyss, where the Shadow Lords resided. Its mission was to oversee the activities of the Shadow Lords, making sure they did not grow too powerful or attempt to take control of the Shadowverse or other realms. It was also responsible for preventing the corruption of souls in this dark domain.

5. Fifth Clone:
Assignment: Elder of the Sung Dynasty
Description: The Fifth Clone was sent to the Palace of the Divine Legacy within the Sung Dynasty. It took the form of an elder, offering counsel and wisdom to the rulers of the Sung Dynasty. Its primary duty was to ensure the prosperity of the dynasty and uphold the divine laws that governed the kingdom.

6. Sixth Clone:
Assignment: Guardian of the Heavenly Soldiers
Description: The Sixth Clone was tasked with overseeing the Heavenly Soldiers, the divine army born from the World Tree's fruits. Its role was to maintain the strength and discipline of the soldiers, ensuring they were ready to defend the realms from any threat. The clone also ensured that the Heavenly Soldiers did not stray from their duties.

7. Seventh Clone:
Assignment: Overseer of the Dark Apostles
Description: The Seventh Clone was assigned to the Dark Apostles, the beings born from primordial darkness. It was responsible for ensuring that the Dark Apostles remained loyal to the Divine Triad, preventing them from pursuing their own agendas or causing chaos in the multiverse.

8. Eighth Clone:
Assignment: Gladiator in the Arenas
Description: The Eighth Clone's assignment was unique—it was sent to the Gladiator's Arenas to participate in battles. Here, the clone fought in an arena, facing powerful opponents from across the multiverse. Its task was not only to engage in combat but also to ensure that the gladiatorial battles remained controlled and did not destabilize the multiverse.

9. Ninth Clone:
Assignment: Guardian of the Blessings at Umbra Citadel
Description: The Ninth Clone served as the Guardian of the Blessings at the Umbra Citadel, a sacred place where followers, worshippers, and priests came to receive the blessings of the Divine Triad. The clone's role was to bestow divine favor and guide those who sought spiritual enlightenment.

10. Tenth Clone:
Assignment: Alternate Guardian of the Blessings
Description: The Tenth Clone's role was similar to that of the Ninth Clone. It alternated shifts with the Ninth Clone, ensuring the blessings of the Divine Triad were constantly bestowed upon the faithful. This clone was crucial for maintaining the flow of divine favor across the multiverse.

11. Eleventh Clone:
Assignment: Overseer of the Apostles of God
Description: The Eleventh Clone was sent to watch over the Apostles of God, angelic beings born from primordial light. Its mission was to ensure that the Apostles remained true to their divine purpose, preventing any rebellion or corruption from taking root among them. The clone also monitored any disturbances in the celestial realm.

12. Twelfth Clone:
Assignment: Overseer of The Void
Description: The Twelfth Clone was deployed to The Void, the vast emptiness between the multiverses. It was a realm of uncertainty and danger, where forces of

chaos could arise at any moment. Its primary duty was to act as a supervisor, ensuring that no outside forces interfered with the stability of the multiverses and preventing any incursions from destructive entities.

13. Thirteenth Clone:
Assignment: Guardian of the Nexus Realm
Description: The Thirteenth Clone was assigned to the Nexus Realm, a place where the boundaries between various multiverses were thin. It was the link between all the realms, and the clone's task was to protect this realm from any external interference or destabilization, preserving the integrity of the multiversal connection.

14. Fourteenth Clone:
Assignment: Overseer of the Chaos World
Description: The Fourteenth Clone was tasked with overseeing the Chaos World, the domain of the seven monarchs' subjects. Each monarch ruled a separate realm, and the Fourteenth Clone was responsible for ensuring that the monarchs' subjects remained under control, preventing any uprising or rebellion that could spread throughout the multiverse.

15. Fifteenth Clone:
Assignment: Vessel for Sung Jin-Woo's Consciousness
Description: The Fifteenth Clone, as previously mentioned, was created solely to house and accommodate Sung Jin-Woo's consciousness. It was imbued with invisibility and invincibility, and it allowed Sung Jin-Woo to remain connected to all multiverses at once. The clone was synchronized with Sung Jin-Woo's essence and allowed him to travel and observe without interference. It was the perfect extension of his will.

Each of these clones had a unique role to play in the grand design that Sung Jin-Woo had set in motion. They were all integral parts of his influence over the multiverse, ensuring that his will was carried out with precision and without fail. Together, they formed a vast network of divine power, each clone working in harmony to maintain the order and stability of the multiverses, while remaining connected to their creator.
